Submission: Objection

Comments: This one of the first steps in a plan to change this area of beauty into an industrial site.

As a resident of Armshead Road, I dread to think what the enlargement of the sub-station will look like and what the impact on health the residents will be. Inevitably, the pylons will need to be upgraded to facilitate the transport of more electricity; what about the danger associated with associated electromagnetism.

This development will ruin the natural beauty of Werrington and change the area for the worse. Surely, the planning application must be declined.
