Submission: Objection

Comments: I strongly object to the above planning application. My reasons for this are-

-The previous application (SMD/2023/0139) on the garage becoming a bungalow, which was passed last year, is different to the plans on the new application (SMD/2024/0241). Car parking spaces have increased, there is no dividing fence between the house and bungalow, which was stated in the original application.

-In application 0241 it states they can utilise street parking. The road is narrow with several bends, this would cause congestion, could block peoples driveways and would make it extremely difficult for emergency services, like ambulance or fire, to access other properties.

-Pedestrian safety, no pavements in the cul-de-sac. Also, the increase of vehicles in the area would be unsafe for children playing outside.

-We are a small residential estate with six cul-de-sacs and only one access road, in and out.
