Enquiry details

FAO Planning Committee

In light of planning application SMD/2024/0241, We would like to express our objection and concerns with said application.

We object in the use of the said C3 dwelling into the use of C2 residential Institution for care of children. We, ourselves as homeowners on the direct route to the property object for the following reasons..

- 1) Higher than normal traffic entering and passing my house at unsociable hours of day/night.
- 2) The safety of our child and her friends who walk near to the named property on a daily basis.
- 3) The general use of the property to become a business premises where there is no call for this on a quiet residential housing estate.
- 4) Basically not wanted on a small estate where property values are respectable and do not want any reason for this to diminish.

This is a housing estate where the majority of people are hard working home owners and we are sure that they will be of the same opinion as ourselves and object to any form of residential institution.

Also we feel that as a concerned neighbour that maybe we should of been consulted about this suggested planning application in some way as it would directly affect us as there is only one way on and off the estate which is directly past our property.

We have received no notification of any planning application and this has only come to light while having a conversation with another couple of concerned neighbours.

We feel that we have expressed our concerns in enough detail and would appreciate a prompt response to this matter.

Kind Regards

Mr Leigh Taylor and Mrs Fiona Taylor
Millhouse Drive
Cheadle
