Submission: Objection

Comments: This industrial "shed" should not be certified as lawful. It has been extended without planning permission. It is now being used as an industrial building as photo evidence confirms and this is also without planning permission.

The industrial use of this shed seems to be as some truck / trailer depot meaning the lanes are subjected to these articulated trucks moving in and out.

The original screening for the solar panel "farm" - SMD/2019/0568 - included this shed but the current plan - SMD/2023/0523 does not. Why is this? It seems the "engine room" of the solar panel farm is being introduced by stealth ? Is this the way developers go about things in the Staffordshire Moorlands?

I strongly request that this certificate of lawfulness is denied and the planning enforcements are carried through.
