Submission: Objection

Comments: The proposed building and carport are far greater in size than the original carport. The building of this structure commenced before planning permission was obtained.

The building was then not built in line with the agreed plans, the revised plans increase the size of the structure considerably, and once again the base for the carport has been laid before planning application has been made/considered

I have concerns over the size of the building and also the purpose of the building, if it to be used by the occupants of Orchard Lea then potentially a considerable amount vehicles can use the facilities and there will be the noise factor.
