Comments: Comments

My concerns regarding this application are the way the sewage will be treated. The application form does not give the correct information which I believe is misleading to planning recommendations, in particular to the environmental impact.

There was no previous toilet block on site prior to 5/02/24.

The proposal is within 15m of the brook

There is no main sewer on this part of Hulme lane all the neighbours and the applicant are on septic tanks.

Could planning inform which existing sewerage system they are going to use?

If it is there own domestic tank is this going to be suitable for staff and clients of a cafe/restaurant business?
