Hi Jane,

I think the only condition is condition 7 that relates to EH is the CSM (for human amenity essentially). The submitted Ecological Management Plan is focused, understandably, on the impacts to the SSSI, though the implementation of these plans should also ensure that the requirements of condition 7 are also met. However, the plan does also include other information regard to dust suppression, hours of operation and adopting BAT for noise mitigation.

Form and EH point of view therefore condition 7 can be discharged

All the Best

Dan
