Submission: Objection

Comments: I object to this planning application as I believe that this 20 metre telephone mast will be unsightly in the picturesque, historical village of Endon. The visual impact on the surrounding area and what is ultimately the entrance to a beautiful village will be severely compromised. Surely a mast of such magnitude should be sited away from residences and the historical features of Endon (the old well) as it will detract from the visual appeal of the area and landscape.

There is also the potential harm to local wildlife and ecosystems in the area - this area is rich in birdlife/ bats and will disrupt there ecosystems.

Its location near to both a younger and ageing population is a cause for concern regarding radiofrequency fields despite reassurances from the telephone company (whose main object will be profit making and not the health of the community).

Its located is within several metres of local residences, I cannot comprehend how this is deemed as both legal and just.

From a personal perspective I believe it will impact on house prices within the vicinity and the ability to sell properties, which will have a detrimental effect on the local community.

I do not believe that this is an appropriate setting for this communications mast and implore that the council consider local residents views.
