Submission: Neither

Comments: Regarding the revised information for the above planning application that The Council has received.

This property was initially a single storey bungalow. It has previously been developed with increased roof height with 3 first floor Dormer windows in the South West facing elevation, which face directly into my premises.

This current application proposes: 3 additional, 2nd floor, windows, each one located above each Dormer, in the South West facing elevation.

If these windows are of a type which will open, they will have direct line of sight into my house and garden, and will more seriously intrude on the privacy of my premises.

The current proposals amount to an overdevelopment of the site.

I understand the occupants intentions are to move from this address.

The next occupier could simply convert any fixed windows to opening, and obscured glass to clear.

Following my previous comments to Planning Department the Applicant knocked on my door and asked me to withdraw my objections.

I do not wish to be contacted by him again.
