IMPORTANT INFORMATIVE TO BE INCLUDED ON DECISION NOTICE

Installation works will likely require traffic management on the highway. This will require approval from SCC Traffic and Network. Details are available at Permissions and licences overview - Staffordshire County Council and Permission to temporarily manage traffic on the public highway - Staffordshire County Council

The developer should contact Traffic and Network as early as possible to ensure road space can be booked and works programmed on the highway. The developer should allow adequate time for processing of the application.

NOTES TO PLANNING OFFICER

Application is for a communications mast.

This will constitute an item of statutory undertakers street furniture in the highway.

Developer will need to make SCC Traffic and Network aware as normally required for such works.

Traffic management may be required for installation. This will require separate approval from Traffic and Network.
