Subject: RE: FRM-SMD/2024/0314 & SMD/2024/0313 - Variation of conditions applications - LLFA Response to LPA - Rev 2
Date: 16 September 2024 10:16:45
Attachments: [image002.png](#)

Hi Rosie

Thank you for the reply and for the confirmation that National Highways are satisfied with the proposals as outlined in the additional documents demonstrating their latest response. If National Highways are aware of the additional flood water that will discharge to the highway and have confirmed that there is sufficient capacity within their network and they are happy to accept this, then we have no objection to the variation of conditions on the applications SMD/2024/0313 & SMD/2024/0314.

Kind regards

Caroline
