Submission: Objection
Comments: I am the owner of the the field at the end of Smithy Lane and have just read through the planning application for the new build on Smithy Lane as they have recently started moving all the earth on the building plot. It proposes that the septic tank drainage system runs up the lane and into my field. I have not given any permission for this and worried that my field intended for livestock will be contaminated and disturbed, so concerned how they proposed to complete the septic tank system without access to my field.
