Submission: Objection

Comments: One concern would be the roof terrace or flat roof as it's now been called. Still the same issues as my response on the SMD /2023/0018.

Major concern is the road, it's narrow and on a blind bend. Its a busy road as it is and can not cope with the traffic that comes through. Sadly Someone is going to end up having an accident. Highway surely should be aware of this. Moving the parking now back onto the road makes this dangerous meaning public, carrying belongings, getting to there car or out of there car day to day onto a road. This road is single file in this area of passing waiting each turn. This was never used for parking for the chapel and grove bank farms yard was used for parking when there was Services on. Children also need to be considered having to manage this road. This road is also not lit with lights as it's a country road, day light or not this is dangerous on this type of road Also on this road just below the chapel in the dip where the holiday makers would be parking. It floods all times of year after rain fall. I have sent my photos/ concerns on this issue already and had no response, when it clearly floods and my pictures show that.

The land across the road thats been added to the property has a woods that houses a lot of Species. This woods is sadly one of few that is still here in Staffordshire moorland with its natural habitat intact. Creating a garden area or distorting this are with septic tanks is only going to cause this to be devastated and no longer in its natural untouched habitat.

Your sincerely,

J.Lowe & J . Pennington
