Submission: Support

Comments: This application would appear to be a welcome addition to the area. The building is required to support the applicants current cattle and allows for further expansion of the applicants business. It is clear that the design and proposed colour scheme is sympathetic with the landscape and would blend in well. The building also allows for storage of fodders and implements which keeps the site tidy and in keeping with the area. In addition it is pleasing to see a landscaping scheme included in the proposal.
