Product Description

Marshalls Fairstone Antique Alverno is a premium quality, riven stone paving available in 4 natural colours including greys and buffs and browns, each selected to add character to any garden patio or pathway.

Antique Alverno is an ethically sourced natural stone paving, which is specially processed to achieve a subtly distressed riven finish with soft, timeworn edges.

Unlike many similarly priced natural stone paving products, Alverno paving is carefully hand-selected to ensure consistent colour across your garden patio project.

Marshalls Antique Alverno is supplied in a single project pack consisting of 4 complementary sizes allowing a range of patio paving patterns to be achieved. Installation of Alverno paving is made easy with its 22mm calibrated thickness and consistent sizing.

Marshalls offer a full range of [riven garden paving](#) to create your garden patio project.

- Achieve a consistent colour finish with this hand selected stone paving
- Create an instant timeless, traditional look with the subtle distressed timeworn finish
- Quick and easy to install with 22mm calibrated thickness and consistent sizing
- Enjoy your patio for years to come with this premium quality, durable natural stone paving
- Create imaginative laying patterns with our 4 size project pack
