Submission: Objection

Comments: I object to this planning due to the scale of the proposal and the effect these large changes will have. The development is very large and will have a huge impact on this rural location. It will be visible for miles and will look totally out of place. Farmland and natural habitats will be destroyed which will permanently affect local wildlife. Solar panels and batteries should be placed on brownfield sites and industrial land not on farmland. Construction traffic to this location will cause massive disruption and congestion to local roads and the large size of this development will leave lasting damage.
