Submission: Objection

Comments: I live very close to Wetley Common - which is a beautiful piece of green belt land - and which is regularly used by walkers, horse riders and nature lovers. Green land is vital for the mental health and well-being of the community.

The proposed application will not only threaten that status, but is not the best place for such a scheme. There are so many brown field sites which would be more suitable, (Brown field sites wouldn't need decontamination work carried out for the proposed use - unlike for housing projects).

Batteries have their dangers too - and big batteries have potentially big dangers. For example, if there was a fire, local people would have to be evacuated for unknown periods of time due to toxic fumes escaping.

The proposed project would also create an eyesore on one of the most beautiful parts of the Staffordshire Moorlands.

I strongly object to the proposal.
