

17/01/24

I, Mr Geoffrey Greest of The Fields Farm, Gratton Lane, being neighbour and adjacent to Endon Mill 1 Mill Farm, can confirm that the late Mr Fred Williamson was engaged directly with farming, mainly stock & harvesting, conducted in the traditional way.

The main hub & storage was located in his sheds / buildings opposite Endon Mill until his death in 2014.

Yours sincerely,

The Fields, Gratton Lane, Endon, Stoke-on-Trent, ST9 9AA

To whom it may concern,

I have been asked by my neighbours, The Williamsons, to confirm their farming history.

To my knowledge they have farmed here in Endon since 1912, both at Gatehouse Farm and Mill Farm.

Gatehouse (Alan) stopped milk production in the late 70s and is now primarily beef stock and silage. Mill Farm (Fred) ceased farming upon his death around 2014, yet grazing and hay making was carried out.

A good relationship has endured and setting of land either way with ourselves.

Yours sincerely,

Mr G Myatt
