Submission: Objection

Comments: I object to this application, it is absurd to think that the proposed is not a risk to the local environment, common land and local residents. The proposed should not be on our green belt land!! The proposed is best suited to industrial areas so as not to disrupt the local people, wildlife, green belt land for years to come.

If this alongside with other proposed applications were to be successful it would prove that the local authority do not consider the risks to the surrounding areas and views of local residents within close proximity and with finances behind the application just makes a mockery of the whole system.

It most certainly will open the floodgates as it can't be one rule for one and another rule for others, planning permission will become a mockery and be ignored.
