Submission: Objection

Comments: I strongly oppose to the plans to build on this site, it will not only ruin the views, there is a wealth of wildlife that used this field including foxes, hedgehogs, barn owls, buzzards, red kites, magpies, frogs etc. The ecological report for this site was only carried out for 1 day and not over a period of time, therefore not giving a true picture of the area. To destroy this habitat would be disgusting and a travesty to nature. Also, there is the issue of the 'mistakes' that have been made by Persimmon in phase 1, they must NOT be allowed to proceed without full planning and full compliance, as they did not before and have made residents of Ness Grove's life hell. This company does not care about the environment or residents that already live in the area. My last note is on infrastructure, the town cannot cope as it is with traffic, doctors places and school places, how will it cope with these extra houses ? If Cheadle needs more houses, please think about building where there is already building and not on beautiful wildlife habitat.
