Submission: Objection

Comments: Apart from the serious concerns about the untold damage this project would do to both the conservation and environmental issues of the area, after all this area is very rich in biodiversity with both flora and fauna. There is also the fact that the local infrastructure cannot cope with the current volume of use. Amenities such as schools, doctors, dentists and ongoing traffic problems are already overwhelmed and this would only be worsened by this development.

I also note the the ongoing report from the S.M.D.C planning and the very alarming findings of the Ombusman and are following it closely as it also shows that matters cannot just be allowed to happen without constant scrutinisation.
