Submission: Objection

Comments: Yet another application for this area. The green belt will be non existent as the culmination of all these applications will decimate the area.

There is a very real risk of fire & explosion & all within the proximity of residents. The area will be unsafe & this includes the setting up of these BESS - the infrastructure is not suitable, the roads/lanes are very narrow making it unsafe for other people using them by car , pedestrians/walkers & the horses & riders that frequent this area.

This will have a detrimental effect on the mental health & wellbeing.

The loss of habitat for the numerous birds of prey & flora & fauna in the area is a worry, they will never return once lost.

There are lots of wildlife that will suffer from the effect of these plans.

I object to this planning application

Please look at the bigger picture & all the separate applications as a whole.

Other countries are using different methods to help to become net zero that can be used without the destruction of the countryside.

Thank you
