Submission: Objection

Comments: I strongly object to this application and cannot even believe that this is being proposed. This is the Staffordshire Moorlands, not a large scale industrial site. There will be no moorlands left if this planning applications are approved. It is ironic that you are proposing to destroy green fields in the name of green energy. It will destroy the local area and local wildlife and have a negative impact on local residents. This is already causing undue stress on those living very close to these proposals.
