Comments: Hello

I would just like to make a comment ref the environmental report SMD/2024 /0429

I read the comments below

General Comments.

The applicant proposes development of a agricultural building for storage and animal housing. The site is relatively remote in a rural area The nearest residential properties are approximately 125m and 150m away from the proposed development and so under the proposed use no adverse environmental impact to amenity is predicted.

I would just like to point out that I live at Longcroft barn and I am a separate resident to Townsend Farm and I live within 20-30 m of said development and I am not sure why the report has not taken my location into consideration.

I hope that when reading the report that the fact that my property has not been taken into account in the report.

Thank you for taking this into consideration when reviewing the application.
