Comments: There does not appear to be any information regarding compliance with Fire Regulations, I live within 1.5 miles of this site and fire is one of my biggest fears relating to these developments, in addition to all the disruption the removal of earth from the site will cause. These roads are not built for heavy vehicles and an extra 12000 journeys will cause damage to the already fragile road surfaces. Children walk along these roads, there are no footpaths and all these lorries are wider than cars, this is an accident waiting to happen. The units appear to be larger than the original proposal, as are the heights. I just feel that the increased industrialisation of this area is not right in an increasingly depleted green belt area.
