Application Reference No. : NMA/2024/0027 Site Address: Land Adjacent Cellarhead Substation Rownall Road
Wetley Rocks Staffordshire Comments by: Mrs S Beardmore

From:

Old Far Rownall Farm
Thorney Edge Road
Bagnall
Stoke On Trent
Staffordshire
ST9 9LD

Submission: Objection

Comments: Dear Sirs/Madam,

I strongly object to the NMA as I feel it is not a minor change as stated. The applicants have had the perfect opportunity to bring this planning application up to conform to up to date fire regulations and have once again chose to ignore this extremely important matter whilst taking the time to increase the size of the planning foot print. Changes have been made to the layout, bunds, landscaping, insertion of a ramp, massive change in height of the substation, no details of the drainage and toxic water run off pond. How important is this??? Where is all this water going, straight into the River. Along with the earlier discharge of conditions of soil movement from site, 70,000 tonnes to be removed down the lanes of Rownall, 12,000 journeys, has anyone taken all this into consideration. This NMA equates to a totally new application and is nothing like the original one passed in 2022. You have a duty to the local residents to at least consider the up graded health and safety aspects of this project and make sure the fire regulations are at the top of the list of changes.
