Submission: Objection

Comments: I consider the proposed amendment would lead to a significant increase in vehicle movements, a magnified negative visual impact on the open landscape and a catalogue of material changes to the original planning application.

The amendment would require further assessment and re-consultation as part of a full planning application.

I conclude that this NMA is not a minor change but a very substantial one.

One that is not applicable under section 96A of the Town and Country Planning act and one that must be resubmitted
