Submission: Objection

Comments: I feel that this should not go ahead because it will have a huge impact on the environment both visually and physically. This is greenbelt land and should be kept that way. There is lots of wildlife in the area, some birds of prey frequenting the area again after many years of disappearance. It will have a huge impact on the infrastructure and cause chaos on the roads while being built, also the risk of fire is a huge concern as there are farms, animals and wildlife that would be destroyed in minutes if a fire was to start. The place for these sites is on brownfield land not here, it will devalue property and harm local businesses which rely on visitors to the area because of its natural beauty. THIS SHOULD NOT GO AHEAD!
