YOUR COMMENTS ON THE CASE

I wish to appeal against this planning application for the following reasons:

1. We are slowly losing our beautiful countryside to this kind of development and in doing so are creating immeasurable harm to the environment. Does no-one care about the countryside around Cheadle and how this development affects us all?
2. The road infrastructure around Cheadle cannot handle the additional traffic that this development will create, not to mention the services, ie doctors, dentists etc. The one way system around Cheadle is already at full capacity, with the amount of lorries and cars travelling through this very small town on a daily basis. The town is gridlocked regularly.
3. We do not need any more houses in Cheadle, there are two developments that are not even complete yet and they want to build another one. It appears to me that this is a money making scheme for developers and any land that they deem "fit" for consumption, they will apply for planning and appear like a plague of locusts consuming all the land around this small town until it is exhausted, before they decide to move on to the next parcel of land.
4. The flora and fauna of this countryside deserves to be preserved so that future generations can enjoy our countryside and grow up in areas where there is wildlife, flowers and trees. We should pay more attention to preserving this way of life than putting money into developers pockets.
