Submission: Objection

Comments: We do not want to lose greenbelt land surrounding our homes, this is not an industrial area - it is clean good living countryside with an array of wildlife and farming. I strongly object to a BESS here as it will cause risk to housing, depreciate the value of homes, drive away wildlife and cause risk to the health of residents and a fire risk to all in the near vicinity. I believe it is illegal to have such battery storage so close to living accommodation and feel that local voices are not being heard. Money and greed already drive society and when there is nothing left that's when people will sit up and cause a stir. This BESS is neither necessary nor wanted it will not bring anything good, and will only contribute further to destroying the environment.
