Submission: Objection

Comments: I object to the plans which will have a negative impact on the local environment. This green belt / agricultural land should be protected. There will be increased traffic which will negatively impact the surrounding roads which are not built for large lorries and heavy loads. The plans will have a detrimental impact on wildlife reducing the numbers and variety. Finally the noise and disruption this proposal brings is unacceptable.

As a supporter of green energy and the environment this plan is not the way to proceed.
