Submission: Objection

Comments: I am writing to object to this planning application for development on green belt land near my home. This proposal threatens to undermine the core purpose of green belts, which are meant to prevent urban sprawl and protect open spaces for wildlife, recreation, and environmental health. The development would lead to the loss of valuable natural habitat, increased traffic, and strain on local infrastructure. It would also negatively impact the area's visual character and set a concerning precedent for further encroachment on green belt land. I urge the council to reject this application in the interest of preserving our green spaces for future generations
