Submission: Objection

Comments: The sheer size of the planning application and the amount of natural habitat and countryside scenery that will be decimated is not acceptable. This doesn't include the likely years of disruption to our roads, constant noise pollution and destruction of the village.

Should this planning be accepted, it will not only be at a detriment to the local community, impacting agriculture and livestock, it will also leave a long lasting impact for many years to come due to the constant noise, light and visual pollution. The construction of this application will ruin the countryside that we live in, make it extremely difficult to rear livestock and will have a negative impact on every person in the village
