Dear Sir/Madam

Re Planning Application SMD/2024/0506, Mr Brown

We are unable to support this application as such a fence and fence posts would further obscure the view for motorists trying to turn out from Haven Crescent, particularly when turning right. It is currently not possible to see clearly due to the existing fence which is higher than the existing fence posts. We pull out very slowly, often to be confronted with cars coming up Moss Park Avenue towards Moorlands Avenue. The drivers cannot not see our vehicles until they are right on them, causing evasive action.

The application is a little confusing given the height of the existing fence and kick panels being approximately 5/6 feet. Some of us understand to this be above the permitted height for a property that borders a well-used road.

Yours faithfully

Wendy and Craig Sandbrook
