Submission: Objection

Comments: I object to the planning application because

1, The knocking down of the existing building should not be allowed because a house of almost 300 years is part of the history of the village.

2, If the existing building, which is attached to the original farm house, was converted to make the original farm house larger, there would be no need to relocate the farm house which would be more in keeping with the whole area.

3, There has already been two incomplete barn conversions on the site, so I feel that that it would be detrimental to the surrounding area to have any more conversions or new builds or buildings. It would create more lights and lighting pollution for the local people and wild life. There has already been two new bright lights erected at two site entrances, which are not in keeping with the area.
