

24/12/2024

Dear Sir/Madam,

I am writing to you that when I first heard a company wanted to build a Battery Storage in the valley between Ball Green and Brown Ege, I thought there must be a better place! Another company has done this and got planning permission, and not on Green Belt after getting more information about the battery storage they are a fire risk! The problem is where they want to put this storage, and there is coal and a lot of it. For me, Leek and Morlands Council did the right thing in rejecting this application! If this storage did catch fire, and the difficulty in controlling and putting the fire out in this remote location it could be a disaster! I would not want this to be on my mind. There are a lot of people who do not want this storage of batteries to be in this place!

Respectfully yours,

Dave Cycles
