District Reference: SMD/2024/0393

Date Received: 09-Jan-2025

Date Responded: 23-Jan-2025

Particulars of Development:

PR Replace the existing lighting with LED, this would include removal of the old wooden columns installed, installing new foundation for the columns. The new columns are going to 8m galvanised base hinged columns datasheet to be supplied.

Location of Development:

LEEK BOWLING CLUB, Beggars Lane, LEEK, ST13 8DB

Recommendation Summary: Acceptance

Site Visit Conducted on: 22-Jan-2025

Personal Injury Collisions;

Current records show that there were not any Personal Injury Collisions on Beggars Lane within 50 metres either side of the access to the bowling club from 30/12/2019 to 29/12/2022.

Background;

Leek Bowling Club is located on Beggars Lane (Road No. D1291), a D classified road. Beggars Lane has a speed limit of 30 mph and benefits from street lighting and footways and has traffic calming in the form of speed humps.

Description of Proposal;

Replace the existing lighting with LED, this would include removal of the old wooden columns installed, installing new foundation for the columns. The new columns are going to 8m galvanised base hinged columns datasheet to be supplied.

Comment;

The proposal is to remove the current wooden lighting columns and replace with new 8m galvanised columns with LED lights. The new columns will be erected in the same position as the current wooden columns as shown in the submitted plan titled Site Plan.

The site is an existing bowling club with lighting the only difference would be the installation of galvanised columns and LED lights.

The proposal will not have a detrimental impact on the adopted highway. I have no objection. (Application number SMD/2024/0393).

Note to Planning Officer:

Given the proximity of St. Edwards School deliveries should be arranged outside of school drop off and pick up times to limit the potential conflict between pedestrians and delivery vehicles.
