Submission: Support

Comments: Due to the incline and height at the front of the property, it is reasonable to create a fence to prevent bins making their way on to the pavement or road in high wind conditions.

Having walked past the property recently, the fence appears to be shorter than the previous hedge that existed there.

The indicated plans to plant further small shrubs around the fence will also help to enhance the view of residents in regard to the visual impact of the fencing.

Therefore, I have no opposition to this application and feel it is a reasonable addition to the property.
