Submission: Objection

Comments: I am writing to firmly oppose this plan. If the proposed plan is implemented, drivers coming from Tean will be faced with two sets of traffic lights in addition to the roundabout, which will undoubtedly cause further delays. I foresee this leading to significant traffic backup, potentially extending all the way to Villa Verde and obstructing that junction as well. This scenario could result in severe congestion, particularly in the event of road closures on the A50, exacerbating an already difficult situation. And not to mention how the traffic lights will affect the people living in our little village, as well as the aesthetics.

I am genuinely distressed by the proposed changes, as they seem to prioritize development over the safety and convenience of local residents. I urge you to reconsider this plan and explore alternative solutions that would better address the existing traffic challenges without exacerbating the situation further.

One such proposal is to include traffic lights at the A50 roundabout as you pass Blythe Bridge. The current traffic situation is already problematic, with queues building up at the roundabout during peak hours. Drivers often have to take significant risks to get through, and I frequently witness near-miss incidents. This is where everyone's concerns should lie, if we are talking about improving the community and saving lives.

Thank you for your time and consideration.
