Technical	
1. Required transportation mode: sea transportation and land transportation (vibration level of ship transportation is 2M4).	
2. Point color: RAL9003.	
3. The overall mechanical strength should be guaranteed to meet the relevant industry standards.	
4. The container shall meet the corrosion protection level C4-H service environment (see the requirements of the long-term vision for details).	
5. The grounding mark is clearly visible, and masking paper is attached for protection before site installation.	
6. Hot dip galvanizing of corner pieces;	
7. Oil of Weight: 1845kg
