Submission: Objection

Comments: I strongly object to this proposal. There is no parking by this mill at all. Previous theories that occupants would use buses rather than cars are a nonsense Buses do not run at times that allow for commuting from Leek.

I live in the next street to Well Street and parking is already a nightmare. Residents cannot park because of people who work in town and use the street as a car park. If the mill were to be converted it would cause even worse problems for the surrounding streets. Anyone converting the building has to provide parking in some form (and I don't mean bike racks!).

Please have consideration for current local residents and refuse this application.
