

This is a sample of Genuine Heather Blue Welsh Slate produced from the famous Penrhyn Slate Quarry in North Wales. The manufacturing process at Penrhyn is accredited to ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007. Welsh Slate produce Penrhyn roofing slates under kitemark licence KM08014 in accordance with BS EN 12326-1:2014. Welsh Slate roofing slates have a 100 year plus product life.

Welsh//Slate recommends that all the slates for a roof area are sorted and graded at the same time to ensure an even distribution of the natural shade Variations that occur in our slates.

County	7mm Nominal Thickness
--------	-----------------------

Please note colour & texture of natural slate may vary and Penrhyn slate may contain naturally occurring green marks.
