Submission: Objection

Comments: I am very concerned about the risk of fire. There are properties that are in the vicinity that will be affected by fire & the fumes & gases that will arise as a result, putting peoples health & lives at risk. Also the animals & birds that will also be affected.

The roads & infrastructure are not suitable for the delivery & construction that will be required.

Apparently there are numerous BESS applications that are queueing up as there are already too many for the grid to support,

The greenbelt will be destroyed & any farming both agriculture & animal farming will be destroyed forever.

This will affect the mental health & wellbeing of residents & visitors to the beautiful area.

The wildlife that frequent this area will be destroyed & they will never return,

Please disallow this unnecessary destruction of this area & the cost to everyone in the vicinity & visitors to the area & wildlife including birds of prey.

Most importantly do not take the risk of fire & or explosion
