Submission: Objection

Comments: I am writing to object to the latest planning application at 4 Miller's View. Despite objecting last time and my views were registered I received no correspondence this time about the proposed change in age at the location.

My objections are again based around road safety for all individuals and parking. By increasing the age range from 8-16 to 0-18 there is the potential for prams and pushchairs at the location now. Miller's View is a small cul de sac with no pavements so these prams will be pushed on the road which is a major concern for the safety of the young children At the top end of the new age range, 18 is classed as an adult so is this now no longer a children's home?

This is the 3rd planning application for this property since 2023. Why has there suddenly been a change in age needed, why was this not just in the original plans? If this new age range is passed, how long will it be before there is yet another application for another change at this location?

Have the council visited the site to check on proceedings? A large fence appears to have been erected that segregates the main property from the bungalow effectively making two separate dwellings which was not in the original planning. What other adjustments have been made that are not yet visible?

Thank you for your time,

Laura
