Submission: Objection

Comments: I strongly object to this application. This is a green belt area and this development is unacceptable. This application and the other pending applications in this area can not be seen as temporary as it will destruct the landscape forever.

There is a health and safety hazard for residents living in the area due to the high risk of fire and explosion. There has already been a number of high profile incidents involving BESS.

This is not an isolated application, as there are several other connected pending applications in this green belt area of natural beauty. All of these applications need to be considered together due to the cumulative impact they will have on the landscape.

I respectfully request Staffordshire Moorlands District planning committee refuse this application to STOP the green belt becoming an area of industrialisation.
