Submission: Objection

Comments: The scale of development on fields in what I can only assume is greenbelt land from the proposals is absolutely abhorrent. Not only should this be refused but the wider applications should also be reconsidered. The impact is huge, the precedent the council is setting is awful and I can only assume to be the result of corruption. Those who approved the associated applications and anyone who supports or approves this one should be investigated immediately by an independent body. We have one chance to protect against development, save habitat and preserve the nature of the countryside for future generations. This responsibility is being squandered by the council. The application should be refused and the council policy should be clear that any subsequent applications will be refused at point of submission. We need to protect our few remaining green spaces.
