Is To whom it may concern

I am writing to you in response to the below:

APPLICATION NUMBER
SMD/2025/0104

APPLICANT'S NAME
SAL

LOCATION
The Grange Clay Lake
Endon

PROPOSED DEVELOPMENT
Residential Development of 6 dwellings

I reside opposite the purposed development on claylake my drive faces the purposed entrance.

I would like to object to this development as I did with the other planning permission that was applied for last year for sum 22 houses.

Even with 6 houses built this will devalue all the houses in the area , the purposed entrance will be right opposite my drive in which from my side is a blind corner .

Putting a big entrance to a housing development in this location is very dangerous and would put any one exiting my drive at risk of a accident.

If someone is turning down the back from the purposed development once you are half way across you cannot see up the road nor can u see when you are coming down the bank around the corner,

It's a huge accident waiting to happen .

You also have drainage issues and sewerage issues not to mention where are these people supposed to go to the docs as both surgeries are getting full,

Kind regards Steven miller

Greyswood claylake Endon Staffordshire ST99DD
