Submission: Neither

Comments: I have one comment about parking provisions.

The application states that the proposed works will not affect existing car parking arrangements. This is incorrect. At present there is space for one car in the existing garage and one on the drive. The proposal changes the garage to a study and thus reduces carparking to one car. I believe that one parking space for a five bedroom house is inadequate and will inevitably lead to excessive on street parking at the end of a cul de sac turning space.
