Submission: Objection

Comments: The road namely Armshead rd has seen a lot of road works that have gravely affected the residents of Drawell Lane they had restricted access and continued congestion on the road of heavy plant will make the situation worse.

The surrounding roads cannot sustain the amount traffic suggested and will also restrict access for workers getting to and from work and whilst these may have a reduction in carbon foot print the closing or restricting of these access rd will mean all the cars are required to have a 3-4 detour that will add to greenhouse omissions and have an economic effect on people struggling with day to day costs now incurring further costs at a time when working people are struggling t make ends meet.
