Submission: Objection

Comments: This is being built on productive agricultural land it risks local water supply. Once the farmland is gone its gone for good. It poses a direct health risk to those living within 100m of it if there was a fire due to the very toxic pollutants given off and the fact the fire services would leave it to burn out . It will harm the wild life in the area despite "Biodiversity net gain" due to the 24hour security lighting which will scare off our barn owls and bats.
